

Steps to change dialling number from 22895400 to 78838600 (effective 1 July 2009)

NOTE : For dial up users only (Not applicable for broadband (eg Streamyx) users

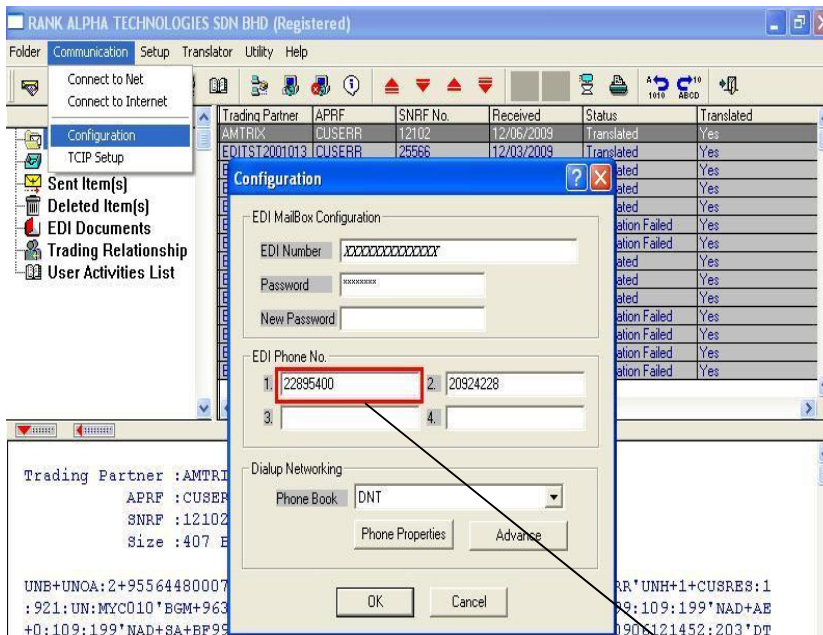

1. Login to Bizlink *(figure 1.0)*

(figure 1.0)

2. Click on **Communication > Configuration**. Then the **Configuration window** will appear with the existing dialling number of 22895400 *(figure 1.1)*. You just need to change this number to 78838600 *(figure 1.2)*. Upon completion of the change, click on "OK" button to save the changes made.

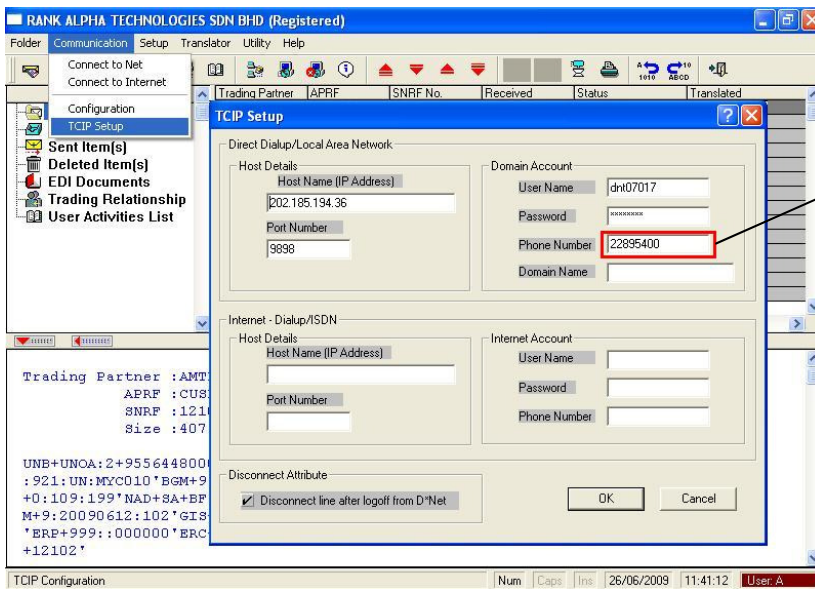

(figure 1.1)

(figure 1.2)

- Next, go to **Communication > TCPIP Setup**. The **TCPIP Setup** window will appear. The original phone number is shown as 22895400 (*figure 1.3*). You just need to change this number to 78838600 (*figure 1.4*). Upon completion of the change, click on “OK” button to save the changes made.
